## Rugged Dual Screen

## 2U Rack Mount Wide 19" LCD with Touch

The DRP2D19 Series is a high performance 2RU Dual LCD display drawer sporting 2 -19" LCD Monitors. These monitors have high contrast ratios (1000:1) and wide viewing angles with a native SXGA (1280x1024) resolution. They fold away to fit into a 2RU (3.5") space. Other options include Dual and Triple 17" Wide Monitors (1920x1200).

The DRP2D Series is the ultimate compact mobile Side-by-Side Dual and Triple Monitor rack drawer solution utilizing only 2RU. It employs i-Tech's patent pending three part Rack Motion Stabilization System (RMS). The rack slide tensioning position secures the drawer while in operation, while the Secure Stow Technology ensures the monitors do not move in transit. The Gas Shock Monitor Stabilizer coupled with the Multi Position Torque Hinges allow almost infinite monitor positioning.

Video inputs include aRGB, DVI-D, CVS, S-Video, Component, HDMI & Optional HD-SDI. It employs S-IPS (Super In Plane Switching) to produce the industries widest viewing angle 178°/178° and the fastest response time 8 ms).

The Standard Finish is Black Powder Coated Light Texture, but it can be customized to any color or logo.
