

Rackmount LCD Keyboard Drawer

1U Short Depth Rackmount LCD Keyboard Drawer

Model: ELDW117HDFe

Utilizing only 1U or 2U of rack space, the ELD series combined a keyboard with glide point touch-pad, Active Matrix LCD monitor and a pair of amplified stereo speakers in a rugged rackmount drawer. With the slide rails included, the unit can be fit to any standard rack chassis ranging from 14.5" to 24" deep. These simply save you valuable rack space to optimize and maximize the use of the rack. A short travel of 13" pull is sufficient to clear the rack and raise the LCD monitor to a comfortable viewing position. The drawer conveniently slides smoothly away when not in use.

Analog-to-Digital Conversion Board

A built-in smart Analog-Digital conversion board is behind the technology in interfacing the digital LCD monitor with standard VGA/DVI output, allowing compatibility with almost all VGA controllers. The conversion board also features an On Screen Display (OSD) for fine-tuning the display in Linux/Unix text and graphical interface.

LCD Flat Panel Monitor

The LCD monitor is built inside a slim and rugged aluminum housing for durability. The display mechanism is hinged so that it can be tilted to the most comfortable viewing position. LCD lay flat on top of keyboard when recessed into the drawer. An auto shut-off switch will turn-off the power to the LCD monitor when the LCD is in recess position.

Keyboard and Pointing Device

The ELD comes standard with a 105 keys membrane keyboard. The keyboard is secured to the drawer and flushed in an aluminum housing. You have selection of touch-pad with two buttons or a standard PS/2 mouse.

TV Tuner Model

A special model with TV Tuner built-in and remote. 17" LCD with VGA, RCA, BNC and S-Video inputs.

Power Supply and Ports

The LCD flat panel monitor is powered by a 60W 100-240V full-range power supply positioned at the back of the drawer with a rocker on-off switch. The keyboard, pointing device and VGA connectors are also positioned at the back of the drawer for easy access.

Finish and Security

The ELD is available in color black with power coated finish. A key locking mechanism locks the drawer when in the full recess position, to prevent unauthorized access.

FEATURES:

- Depth only 14.5"
- Weight only 20 Lbs
- 16:9 wide screen
- 1920x1080 resolution
- PS/2 or USB touch pad (must specify when order)

SPECIFICATIONS:

Height	1U - 1.75"
Width	19"
Length	Adj. 14.5" - 24"
Weight	20 LBS
LCD Size	17.3" (16:9)
Response	8ms
Resolution	1920x1080
LCD Colors	262K
Luminance	300 cd/m2
Contrast	400:1
Video Input	VGA, DVI
Interface	PS/2, USB
Mouse Type	Touch Pad
Speakers	Yes
Temperature	0° to 40°C(Operating) / -20° to 60°C(Storage)
Humidity	10%-90% non-condensing
Oper. Altitude	0 ~ 3,000m or 10,000ft
