

1U 5" COMPONENT SHELF

The Kendall Howard 1U 5" Component Shelf was designed to accommodate any standard 19" EIA rack. It will support non-rack mountable devices, such as routers, hubs, and small monitors, that are needed to complete a larger racking solution. The heavy duty construction makes the 1U 5" Component Shelf reliable and dependable for your peripheral network equipment.

- Compatible with any standard 19" EIA rack
- 5" depth
- 15 lb. weight capacity
- Made in the USA
- Limited Lifetime Warranty

FEATURES

Heavy Duty - Heavy duty steel construction features two flanges for added strength and rigidity. The textured black powder coat finish lends durability to the shelf, while helping to keep it free of scratches.

Two-Point Mounting - Cantilever or two-point rack shelf is perfect for use in two-post racks, wall mount racks, swing down/pivot racks, and cabinets.

Rounded Corners - Rounded corners eliminate sharp edges and help to avoid snagging or damaging cables, hands, and/or other devices.
