

2-POST ECO RACK

The Kendall Howard 2-Post Eco Rack is the perfect racking solution for wiring closets, telecom rooms, and data centers. The 800 lb. weight capacity will support all of your telephony and network equipment such as patch panels, switches, routers, and more. The unique design features both cage nut style and 10-32 tapped rails, and with six possible anchor points to ensure stability, the Kendall Howard 2-Post Eco Rack is perfect for any environment.

- One side 10-32 tapped rails
- One side universal cage nut style rails
- Six anchor points for stability
- Gangable
- 800 lb. weight capacity
- 19" EIA 310-D compliant
- Made in the USA
- Limited Lifetime Warranty

FEATURES

Economical Design - Made from American grade, cold rolled steel, this relay rack combines the strength and dependability of a Kendall Howard solution with a cost-conscious price point.

Gangable - Gangable design makes locking these racks together quick and easy.

Quick Assembly - Knockdown frame is quick and easy to assemble. The self-squaring frame only requires an Allen key, a wrench, and approximately 15 minutes of assembly time before your rack is ready to be populated.

Unique Rail Design - Whether you like working with universal cage nut style rails or tapped rails, the Kendall Howard Eco Rack allows you to use your preference. The U shaped rail channel has the universal square cut outs for cage nuts on one side and 10-32 tapped mounting holes on the other.
