

## PERFORMANCE ROLLOUT CART

LAN Station Sold Separately

The Performance Rollout Cart makes it easy to store heavy equipment below the work surface and the bolt on casters allow instant access. Performance Rollout Carts are designed to work with the 100 and 400 Performance Series® LAN Stations/Workbenches and will replace the 14" lower shelf of these work stations. With the Performance Rollout Cart, now it's easy to store servers, UPS's, and other peripherals under the work surface and still have access to these products.

- Works with 100 Series and 400 Series
- Ships fully assembled
- Supports 300 lbs.
- Made in the USA
- Limited Lifetime Warranty

### FEATURES

**Mobile** - The bolt on casters make the Performance Rollout Cart easy to rollout for use and then tuck back under the LAN station for storage.

**Compatible LAN Stations** - The Performance Rollout Cart is designed to work with the 100 and 400 Performance Series® LAN Stations/Workbenches. It replaces the 14" lower shelves on these work stations.
