INNOVATORS IN PRODUCT DESIGN

Description

2U 14" Component Shelf

SKU

1906-1-002-02A

Dimensions

19" X 3.5" X 14"

The Kendall Howard Rack Mounted line of shelves is another great way to store your non-rack mountable components. Our shelves are suitable for monitors, modems, DSL routers, tape players, backup units, and virtually anything you can think of.

These products are constructed from heavy 14-gauge steel and individually formed by hand. Each corner also features radius corners for optimum safety and handling. All shelving units have a front and back flange to ensure your components cannot slide off.

Our 2U unit is a great medium to heavy-duty shelf. This unit will support just about any monitor or other medium weight component. This is the all around best shelf for most racking needs.
