

TOUCH MONITOR

7" USB Monitor with Resistive Touch
Slimmer and less Weight

MODEL: LYW070BS-TR

FEATURES

LYW070BS-TR has thousands of useful and fun applications: keep your main display clutter free, park your Instant Messaging windows, keep your application palettes on it. Use it as a digital picture frame, as a dedicated stock ticker display, put your gaming maps on it. It is great for use with a small laptop or netbook because of its light weight and single USB connection, it can travel with your laptop, no power brick needed!

General Productivity

Outlook/Mail, Calendar or Address Book applications up all the time View Widgets for To-do's, Weather, Stock Tickers, Dictionary, Thesaurus, etc. Track System Performance, Monitor Network Traffic, CPU cycles

Entertainment

Have your media player up to control entertainment Quick access to important toolboxes for online gaming Use it as a secondary display for computers hooked up to TVs Run a 2nd or 3rd display without the need for a new graphics card

Social

SKYPE/Google/MSN Chat while using other full screen applications Watch for Friends on Facebook and MySpace Keep your Twitter Client up all the time but off your main work screen

Creative

Park your Adobe Creative Suite application toolbars or controls Powerpoint: keep your formatting palettes, colors, etc. on a separate screen

Business (Retail, Healthcare, Finance)

Integrate into point-of-purchase or point-of-registration process Cost-effective method to have multiple consumers/customers register, enter information, and authenticate Use one computer for multiple users (with virtualization software - not included)

Shopping

Monitor online auctions
