

Portrait Modular Interactive Digital Signage Kiosk

Modular Interactive Digital Signage Kiosk for Any Environment
Features Industrial Quality LCD's Ranging from 32" to 46"

Model: *OPK3200P / 4200P / 4600P*

This stunning pedestal style kiosk was developed for interactive digital signage applications, but due to its incredible adaptability, the OPK Series is well-suited for a number of other capacities. The OPK Series features high grade digital signage monitors built for 24/7, year round operation. This kiosk can accommodate virtually any single or multi-touch LCD monitor with the option to orient the display to portrait or landscape mode. Because its capacity to accommodate larger monitors, it allows dual use of the monitor through the ability to split the screen for applications such as retail and way-finding. Performance on a pedestal; the OPK Series can be configured with peripherals including; thermal printers, a media player device, magnetic and smart card readers, proximity sensors and QR/barcode scanners.

32" Display

42" Display
