RMK2U4P100-D

The Rackmount Monitor Kit allows you to use a standard Flat Panel Monitor and install it into a Rack and save hundreds of dollars over the cost of other similar products. The kit supports Flat Panel Monitors with 75 mm or 100 mm hole patterns. The Rackmount Monitor Kit can be installed in Racks with an installation depth from 16 - 23" (406 - 584 mm). The articulated, cable management arm is sold separately.

Use your monitor or select our 17", 19" LCD:

- Supports 15" - 19" LCD with a VESA mount
- Compatible with any KVM switch
- Articulated cable management arm sold separately

Fits any 4Post racks:

- Square, round holes
- Adjustable mounting depth of 16 - 23" (406 - 584 mm)
- Only requires 2U of rack space
