## VERTICAL MOUNT POWER STRIP

■■■■ WITH CIRCUIT PROTECTION & LCD CURRENT METER

- IEC C20 Power Inlet Connector
- 8 IEC C13 Receptacles
- UL 489-listed Circuit Breaker
- LCD Current Meter
- Power distribution up to 4.60 KVA to 8 AC loads

# TECHNICAL SPECIFICATIONS

#### <u>Input</u>

Power Input: Single Phase, AC

Voltage Range: 200-240 VAC

Current: 20 Amps

• Input Protection: 20A Circuit Breaker

Panel Indicators: Power-on, LED

### <u>Output</u>

• Power Output: 4.60 KVA

• Output Receptacle: 8 x IEC C13

## Physical & Environmental

• Size (Overall): 29.13"W x 1.69"H x 2.97"D

• Temp. Range: 0°C to 40°C

• Weight: ≈ 7 lbs.

Are you looking for a rugged power strip with dependable protection and current metering? The 7200-A-71 features these qualities and much more. This Spectrum Power Management Systems power strip provides for the reliable power distribution of up to 4.60 Kilowatts of power via eight IEC C13 outlets to 200-240 VAC auxillary appliances.

To avoid the possibility of system faults, this unit features a UL 489-listed circuit breaker and LCD current metering. The current meter in this advanced power strip allows the user to monitor the total load drawn at the PDU source. This enables the user to quickly identify current draw on an individual appliance basis.

This unit also features an IEC C20 power inlet connector for an economical solution to power distribution needs. The 7200-A-71 is a simple solution for all 20 Amp 200-240 VAC appliances.

We at i-Tech Company know how important it is to find the perfect power distribution solution. For additional information on the 7200-A-71 or other power strips from Spectrum Power Management Systems, please contact a Sales Representative at sales@i-techcompany.com or visit the website at www.i-techcompany.com.
