

# VERTICAL MOUNT POWER STRIP

■■■■■■ 33" DESIGN WITH CIRCUIT PROTECTION

## 72A-130BHLBN-00

### FEATURES

- Two UL 489-Listed Circuit Breakers
- NEMA L5-30P Power Cord Connector
- 12 NEMA 5-20R Receptacles
- Ruggedly Constructed 0U Design

### TECHNICAL SPECIFICATIONS

#### Input / Output

- Voltage Input: 100-127 VAC
- Voltage Output: 100-127 VAC
- Line Current: 30A Max. (24A Derated)
- Output Power: 3.60 KVA
- Output Connector: 12 x NEMA 5-20R
- Input Protection: 2 x 15A 1 Pole Circuit Breakers
- Panel Indicators: Power-on, LED

#### Physical

- Size (Overall): 33.0"W x 1.73"H x 3.25"D

We at i-Tech Company know how important your rack space is. That is why we strive to provide high-quality power solutions in a compact size, leaving valuable "U" space for other network-critical devices. We are pleased to introduce the newest line of AC Power Strips from Spectrum Power Management Systems.

The 72A-130BHLBN-00 is an excellent choice for standard power distribution to 20A devices. This device features 12 NEMA 5-20R outlets and a NEMA L5-30P input. The 33" power strip utilizes two UL 489-listed circuit breakers to manually control on/off operation of the 12 receptacles. No fuses are used which allows the unit to return to service quickly and easily. For easy power-on indication, each circuit breaker features an LED power-on indicator. Additionally, each circuit is clearly labeled to help simplify load balancing.

For additional information on the 72A-130BHLBN-00 or other power strips from the Spectrum Power Management Systems line, please contact a Sales Representative at [sales@i-techcompany.com](mailto:sales@i-techcompany.com) or visit the website at [www.i-techcompany.com](http://www.i-techcompany.com).
