# How to Calibrate PCT Touch

First step to set correct resolution in PC, and then try re-plug the USB cable for the touch (that will recalibrate the touch automatically), it' better reboot again to let the system detect correct touch driver on windows system.

**Use the following steps to calibrate your touch screen in Windows 7:**

- 1. Click **Start** and then **Control Panel**, and next **Hardware and Sound**.*
- 2. Under **Tablet PC Settings**, tap **Calibrate the screen for pen or touch input**.*
- 3. On the **Display** tab, under **Display options**, tap **Calibrate** and then **Yes** to allow the program to make changes.*
- 4. Follow the on-screen instructions to calibrate your touch screen.*
